QUALITY ANALYST

With almost 3 years of experience in Web, Mobile, and API Testing, I'm skilled in tools like Testlink, Postman, and Jira. I excel in crafting test cases, bug reporting, test plans, and generating QA reports. Additionally, I'm an effective communicator and a collaborative team player with strong leadership abilities.

KEY COMPETENCIES

- Functional & API Testing
- Web & Mobile App Testing
- Automation in Testing
- White Box Testing

- QA Documentation
- Critical thinking skills
- Excellent communication skills
- Selenium & Git

- Strong interpersonal skills
- JIRA & Zephyr Squad
- Exceptional organisational skills
- Client Handling

PROFESSIONAL EXPERIENCE

Skeps - SDET   June 2024 - Present

- Developed and executed functional, API, and database test cases for fintech software integrating merchants and lenders, ensuring smooth and reliable customer data processing.
- Conducted API and database validations, performed white-box testing by reviewing developer pull requests, and collaborated with developers to ensure accurate implementation and faster defect resolution.
- Led regression and exploratory testing efforts, uncovering hidden issues before production releases and improving overall product quality.
- Contributing to the development of an automation framework, writing test scenarios and reviewing code to enhance test coverage and maintainability.

Studiographene - Analyst   Dec 2021 - Feb 2023

- Created and maintained test plans, cases, and defect reports, while executing functional, API, and database testing for web and mobile applications.
- Conducted a PoC on Katalon for end-to-end test automation, demonstrating its potential to enhance regression testing and reduce manual efforts.
- Developed automated test scripts using Selenium and Python (Pytest framework) for IoT-based projects, improving test efficiency and reliability.
- Monitored quality KPIs, participated in audits, and provided insights for continuous process improvement.
- Led product demos for stakeholders, showcasing testing results and their impact on product quality.

Copper Mobile Pvt. Ltd. - Associate Quality Analyst   Dec 2021 - Feb 2023

- Developed and executed test cases for functional, integration, regression, compatibility, and responsive testing for mobile and web apps.
- Managed bug reports in JIRA and collaborated with developers to prioritize and resolve issues, reducing project delays.
- Participated in client demos and project updates, communicated testing outcomes, and incorporated feedback into testing.
- Facilitated sprint ceremonies and created QA reports to update stakeholders on project progress.

Copper Mobile Pvt. Ltd. - Associate Quality Analyst - Trainee   Sep 2021 - Dec 2021

- Developed **test cases** to meet project requirements.
- Conducted **manual testing** for mobile and web applications, documenting identified bugs and issues in JIRA for streamlined tracking and resolution.
- Performed **API Testing** using Postman & Swagger.
